policyIQ

Policy Management Solution

Policies are the backbone of corporate governance. You need a policy management solution that works for all aspects of the policy life cycle.

policyIQ has you covered with the tools you need for writing and approving policies, to the communication tools to ensure your employees have read them. You can track violations, document remediation plans, and link it all to your compliance and audit initiatives.

With policyIQ you can...

- Centralize all policies, procedures and related content into a single, online portal available 24/7 from anywhere in the world
- Maintain a full audit trail of every change automatically, as well as a formal version history of every policy, procedure, or other content
- Improve compliance by issuing sign-off forms to ensure that all employees have read the current policies
- Create an issue management process to track incidents or exceptions, for improved governance and oversight
- Link policies to related compliance content, such as regulatory frameworks or internal controls

policyIQ is designed with *you* in mind. Our simple configuration tools allow you to quickly customize policyIQ to support *your* process, and the application is flexible enough to meet the unique needs of your organization.

Whether you are a small business or a large corporate enterprise, policyIQ offers solutions that will work for you.

policyIQ

GRC technology as *unique* as you are

Comprehensive, customized policy management technology does not have to be complicated. policyIQ keeps it simple, with an easy to understand user interface for all users - from the employee seeking information only a few times per year, to the compliance administrator staying on top of the ongoing updates.

The best part? You can be up and running in policyIQ for policy management in just days!
